VOL. 36. BLOOMSBURG, PA. THURSDAY, NOVEMBER 7, 1901. NO. 45

## ELECTION DAY IN TOWN.

There was little interest and absolutely no enthusiasm displayed in Bloomsburg on Tuesday. The polls opened at seven o'clock. At each of the four voting places in the earlier hours of the day, there was an apparent feeling of unconcern and the apathetic conditions increased as the day advanced. The vote throughout was very light, even for an off year. This can be accounted for perhaps by the fact that there was little or no effort made by either party to obtain the suffrage of the voters. The ballots were not scratched to any very great extent and this together with the lightness of the vote made it rather easy for the election officers, who were able to complete their work in a short time after the polls closed. The vote in town resulted as follows:

## All Obstacles Are Now Overcome.

**And the Trolley Will be Built to Catawissa.**

The Columbia & Montour Electric Railway Co. has secured from the officials of the Pennsylvania Canal Co. the right of way between Rupert and Catawissa, and also permission to use the tow-path of the abandoned canal for the road-bed between the two points. This will set at rest the rumor that the Pennsylvania Railroad Company had secured the waterway and that a branch, extending from Danville to Nanticoke, would be erected.

This matter has been the cause of considerable annoyance to the Electric Railway men, because there is no other route by which Catawissa could be reached. The public road is too narrow, and besides, there were other objections to it.

This grant removes the barrier and the road will now be pushed to an early completion. A force of men were put to work Tuesday morning and it is only a question of a short time until rails will be laid.

## To Prevent Interference.

**Injunction Served on P. & R. Railway Co. by the Columbia & Montour Electric Railway Company.**

Judge Little on Tuesday afternoon granted an injunction to M. F. D. Scanlon & Co., contractors for the Columbia & Montour Electric Railway, against the Philadelphia & Reading Railway Company lessees The Rupert and Bloomsburg Railway and the Catawissa Railway, restraining them, their officers, agents, workmen and employees from interfering with the work of laying the track of the said Electric Railway Company on the abandoned tow path of the Pennsylvania Canal between Rupert and Catawissa and at the bridge above Rupert.

The writ was served on Theodore Ludwig, agent for the Railway Company at Rupert, by Deputy Sheriff Bruce Black and immediately thereafter the men who had been guarding the Electric Railway Company's property were withdrawn by contractor Scanlan.

This has been an unusually pleasant fall. The woods are beautiful and the weather ideal.

## May be Made a Bishop.

The numerous friends in this town of Rev. Dr. H. L. Jones, of St. Stephens' Episcopal church, Wilkes-Barre will receive with pleasure the information that there is a strong likelihood of his being made a bishop. He is favored to succeed the late Right Rev. Abraham Newkirk Littlejohn. His name will be proposed at the Episcopal convention to be held on the 20th of the present month.

## THE PUBLIC LIBRARY.

After the regular monthly meeting of the Civic Club, held on Saturday afternoon last, the Library Department held an enthusiastic meeting. The president of the department, Miss Waller, called the meeting to consider various items of business in connection with the public library, among the most important of which was the financial status of the library fund.

As is well known, the amount handed over to the treasurer from the recent presentation of "The Man in the Moon" is $130.00. This, in addition to the money already in hand from previous entertainments, contributions from various clubs of the town, &c., swells the library fund to $738.28.

In view of these facts, the ladies feel themselves warranted in proceeding promptly to such measures as will make the public library an assured fact, and they have set the date, January 1, 1903, as the time for the formal opening of the same. Of course, the money in hand will not be adequate for the proper maintenance of a library such as we hope to have in time, but it is enough for a beginning. "Tall oaks from little acorns grow," and those most deeply interested in the movement are determined to make a decided and persistent effort during the coming year to have the long talked of public library materialize at the date mentioned. They count on the financial as well as the moral support of all public minded citizens of Bloomsburg, especially do they look to the business men of the town.

There is nothing the business men could do to attest more certainly to the world at large the present business prosperity of the town than to establish a public library.

While the people of a community are placing the business interests of a place upon a secure foundation, all their energies are centered in material enterprises, but as soon as these are established they turn to those things which make for culture and refinement. Bloomsburg has successfully passed the former stage, now let her prove it by establishing a public library.

## Narrow Escape From Death.

**Albert Tilbury Suffers a Double Fracture of the Left Leg.**

Albert Tilbury was badly injured on Saturday, sustaining two painful fractures of the left leg, one above and the other below the knee, but when the circumstances under which the accident occurred are considered it is almost impossible to see how he escaped instant death. He was one of a number of workmen engaged in getting out building stone at the Chrisman quarry in Hemlock Twp. A driver of one of the teams, William Bauman, was inexperienced and wholly unfamiliar with the road, and it was thought best to assist him down the hill. Mr. Tilbury volunteered, and mounting the wagon endeavored to apply the brake. Try as he would he could do but little toward retarding the motion of the wagon. Had the road been straight, probably nothing would have happened. but in rounding the curve, the wheels of the wagon slid to the very edge of the road and its great weight carried it down over the embankment a distance of fifteen feet. In going down the vehicle was completely overturned. Bauman, realizing the great peril, jumped and escaped, but Tilbury clung to the wagon. Dr. John was sent for, and after medical attention was given him the injured man was removed to his home on Catharine street. The horses were only slightly scratched.

## Christian Endeavorers Assemble.

**Large Attendance and Deep Interest Characterizes The Convention.**

The Christian Endeavor Societies of Columbia and Montour Counties, assembled in fourteenth annual convention Monday evening. The opening session was held in the Presbyterian Church. There were more delegates registered than on any previous occasion, there being nearly a full representation of the societies throughout the two counties.

The initial feature was a song service conducted by J. E. Sterling, followed by short devotional service led by Rev. S. S. Mummey of Espy.

Dr. Weber of Sunbury addressed the convention on "Young People in the Church." Walter Brooke rendered a flute solo, and Rev. Joseph Hunter of Berwick concluded the program with an eloquent and forcible address.

A short session, termed quiet hour was held in the Evangelical church at seven o'clock Tuesday morning, and the closing session in the Lutheran Church Tuesday evening. The edifice was thronged with people and the exercises were a fitting close to a most successful convention. The speakers were Myron I. Low, of Lime Ridge, Rev. Sawtelle, of Benton, Horace Breece, of Berwick, A. U. Lesher of Berwick and Rev. Wayland Hoyt, D. D. of Philadelphia. A very pleasing feature of the evening was a vocal solo by Miss Hettie Cope. The meeting closed with consecration service, conducted by Rev. J. H. Weber, D. D. of Sunbury.

The Operetta "The Man in the Moon" was well rendered by the people of Catawissa on Friday and Saturday evenings and big audiences were present on both occasions. A number of those who took part in the piece here, went over Saturday evening. They speak very favorably of the manner in which the various parts were handled. Acceding to a popular demand the entertainment was repeated Monday evening.

## Fusion Ticket a Winner In Greater New York.

## SETH LOW MAYOR BY 40,000.

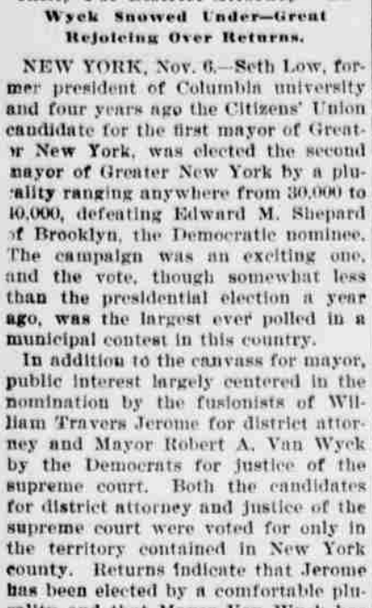
**Justice Jerome Has Comfortable Plurality For District Attorney—Van Wyck Snowed Under—Great Rejoicing Over Returns.**

NEW YORK, Nov. 6.—Seth Low, former president of Columbia university and four years ago the Citizens' Union candidate for the first mayor of Greater New York, was elected the second mayor of Greater New York by a plurality ranging anywhere from 30,000 to 40,000, defeating Edward M. Shepard of Brooklyn, the Democratic nominee. The campaign was an exciting one, and the vote, though somewhat less than the presidential election a year ago, was the largest ever polled in a municipal contest in this country.

In addition to the canvass for mayor, public interest largely centered in the nomination by the fusionists of William Travers Jerome for district attorney and Mayor Robert A. Van Wyck by the Democrats for justice of the supreme court. Both the candidates for district attorney and justice of the supreme court were voted for only in the territory contained in New York county. Returns indicate that Jerome has been elected by a comfortable plurality and that Mayor Van Wyck has been defeated, the latter running behind his ticket from 15,000 to 20,000.

Returns also indicate the complete triumph of the Greater New York fusion ticket, Charles Vincent Fornes, the nominee of the Citizens' Union and the Republicans, defeating George M. Van Hoesen, the Democratic nominee, for president of the board of aldermen and E. M. Grout, for the past four years Democratic president of the borough of Brooklyn, being chosen for comptroller.

The great feature of the voting was the early casting of ballots. This applied to the brown stone as well as the tenement house districts. There was a drizzling rain up to 9 a. m., but after that hour there was nothing to keep even the most fastidious voter from the



SETH LOW.

polls. Seth Low, fusion candidate for mayor, cast his ballot at 7:55 a. m.; Edward M. Shepard, Democratic candidate, at 11:25; Richard Croker and his two sons were Nos. 1, 2 and 3 at their polling place a minute after 6 a. m.; Senator Chauncey M. Depew dropped his ballot in the box at 9:45 a. m., and Mayor Van Wyck waited until 3 p. m.

The practical use of a voting machine was demonstrated in the Eighteenth district of the First assembly district, Brooklyn, and the result was known at 5:02 in the afternoon, immediately after the polls were closed. No difficulty was experienced in recording the vote, and in many instances men cast their votes in less than three seconds.

Richard Croker at 8:45 o'clock last night conceded the election of Seth Low, fusion candidate for mayor, but Mr. Croker was not willing at that time to give up the county ticket.

He said he was much disappointed at the Brooklyn vote, as he had expected Mr. Shepard to make a good showing there, it being his home borough.

As to the causes for the defeat of the Democratic ticket, Mr. Croker said he was inclined to ascribe it to the large silent vote and the fact that the people sometimes feel they want a change.

### VOTE IN THE STATE.

**Republicans Will Control Next Assembly—Some City Figures.**

NEW YORK, Nov. 6.—Reports received from the various sections of New York state show that the Republicans will retain control of the lower house of the state legislature, the number of Republican and Democratic assemblymen not differing materially from the figures of preceding years.

In the various municipal contests reported from up the state the most interesting elections noted were those of Albany, Troy, Rochester, Syracuse and Buffalo. The city of Albany was carried by the Republicans, ex-Senator Hill taking no active part in the local canvass. The election in Troy was a lively one, a number of arrests for illegal voting being made.

Ex-United States Senator Murphy headed the fight for the candidate of the Democrats, while former Governor Black was the manager of the campaign for the Progressive Democratic-Republican ticket. Daniel E. Conway, candidate for mayor, supported by ex-Governor Black, was easily elected. In Buffalo the entire Republican city and county ticket were elected, Erastus C. Knight, the state comptroller, being chosen mayor. The result in Rochester was close, but Mayor Warner's friends claim his election over the Republican candidate. In Syracuse Mayor McGuire, for a number of years past the Democratic mayor of the city, was defeated by the Republican nominee.

## TOLD OF ROOSEVELT.

### Stories Illustrating the Character of Our New President.

**He Is an Approachable Man and Displays Genuine Cordiality in His Handshake—By Nature He Is a Fighter.**

Anecdotes in which President Roosevelt figures as the star are almost as numerous as those told of Lincoln. Possessing a striking personality, and having a habit of doing and saying things out of the ordinary, his words and deeds are always interesting.

President Roosevelt is not only an approachable man, but he displays a cordiality toward people he meets that makes a lasting impression. When one is introduced to Mr. Roosevelt he cannot help feeling that he is an object of no little interest to him. The new acquaintance goes away feeling that the greeting was not one of a mere formality. If he has had a story to tell he knows that it has been heard and absorbed. A new page at the state capitol took his first note to Roosevelt when governor with fear and trembling. Thoughts of the greatness of the man he was to see overwhelmed him. When he reappeared from the governor's office after delivering the note he was all smiles, and to another page he remarked enthusiastically: "Say, ain't Teddy a peach?" This is not a familiarity. That same boy would run seven miles for Mr. Roosevelt and be willing to punch the boy who said anything disrespectful. He entered the governor's presence expecting to be overawed, he cam out with the impression that he had known him for a long time and was glad of it.

Mr. Roosevelt's interest in animals is almost as great as in man. He was walking from the capitol at Albany one day, accompanied by a friend, when he noticed two sturdy but tired horses striving to haul a heavy load up the ice-covered street. One slipped. Immediately Mr. Roosevelt stopped, and, with an absorbed expression on his face that he shows when deeply interested, watched the horse regain his feet. The horses stumbled again on

PRESIDENT ROOSEVELT.
(From the Latest Photograph of Our New Chief Executive.)

the ice. "Stop a moment," Roosevelt said to the driver. "Drive sideways." The driver did not recognize the governor. He was about to say something unpleasant when the governor caught his eye. Then the man zigzagged his horses up the hill past the ice with never a word. The grim look on Roosevelt's face disappeared just as quickly as it came, and the next minute he had tipped his hat to a little child who saluted in true military fashion.

Roosevelt is by nature a fighter. He has all the stubborn tenacity that was inherited with his Dutch blood, coupled with almost a Celtic willingness to combat anyone or anything, anyhow or anywhere he deems proper and necessary. When he fought against two parties to push through the bills giving Controller Coler, of New York, the right to pass upon prices paid by departments for goods purchased and supervision in the confession of judgments the leaders of his party came to him and said:

"Governor, you are building up a powerful rival to you for next fall."

"Maybe so," he replied, "but he is right and he's going to have those bills if I can get them through for him." And he got them through.

While a police commissioner in New York city, Mr. Roosevelt did not depend on the reports of his subordinates to learn whether his orders were being obeyed and that the reforms he recommended were being carried out, but pursued the simple, effective method of personally visiting the patrolmen of the force on their beats at night. On one of these trips he found two policemen drinking in a saloon. "Is this the way you do your duty?" he asked, quietly. Neither of the officers had seen the commissioner before and they took him for some prying stranger. "What's that to you?" replied one of the men. "Get out of here or we will throw you out." Mr. Roosevelt did not get out. Nor did he lose his temper. He replied in the same quiet voice: "No, I will not go out. I am Police Commissioner Roosevelt, and I am looking for men like you who do not obey my orders. Come to my office to-morrow." The men apologized, but it was of no use. They called at the commissioner's office the next day and were reduced.

**Desperate Bank Robber.**

LONDON, Nov. 5.—Yesterday afternoon a man named Lanscombe entered the Kennington branch of the London and Southwestern bank and shot the cashier dead. He then called upon the clerks to deliver the contents of the till. A clerk grappled with the robber, who, finding that escape was impossible, shot himself. Another clerk was wounded in the struggle.

**General Corbin Remembered.**

WASHINGTON, Nov. 5.—Adjutant General Corbin has received a very beautiful gold lined silver punch bowl and silver stand for glasses from the officers of his old regiment, the Twenty-fourth infantry, in which he served over twenty years ago, before he was transferred to the adjutant general's department. This regiment is now in the Philippines.

**Kongo Troops Eaten by Cannibals.**

LONDON, Nov. 2.—A dispatch from Antwerp says that a detachment of black troops recently sent by the Kongo authorities to quell a revolt at Balingis, in Kassai, was captured, and the soldiers were killed, roasted and eaten.

"Wedding presents are mentioned in the Bible," said Miss Frocks to the young clergyman.

"I didn't know that. Where?"

"Oh, yes; the Scriptures speak of marrying and giving in marriage."—Town Topics.

"A shadowy vale of woe,"
And such frequent declarations

—Washington Star.

**THEY KNEW WHAT WAS COMING.**

"Sweetie!"
"Petlet!"
"And when you have spoken to papa, I will call at the hospital every day until you are well again!"—Ally Sloper.

**Church Sidewalk Nuisances.**

A girl voices her sentiments as follows, and we are sure some other girls can vouch for its correctness: "If there is anything that will make one feel like you have got into a lot of unweaned calves it is when one comes out of church, Sunday night, and find a lot of idiots lined upon the sidewalk. They crowd along the sidewalk and compel women and children to elbow their way through. I'd like to see the girls arm themselves with hat pins about two feet long and give every fellow who stands in her way a good poke."

# WASHINGTON.

From our Regular Correspondent.

Washington, Nov. 2, 1901.

President Roosevelt is doing some very hard thinking these days and the results are by no means reassuring. A month ago he had no conception of the dilemmas a man who desired above all else to be true to his country, his party and his own chances of a second term would find in the White House. He is, however, having these things thrust upon him. He finds a growing demand in the West for a reduction of those schedules of the tariff which are protecting the trusts and this demand is being fed by such men as Babcock to whom local issues and the demand of his own constituents seem to be all important. On the other hand he finds that he is almost powerless to effect any relief from present conditions. He is beginning to realize that, after all, a president's power is limited in many ways and in many directions.

* * *

The party leaders have, in response to the President's request, been coming to Washington and most of them tell him that it will be simply impossible to secure any legislation by the coming Congress that does not meet with the entire approval of the trusts. They tell him that while reciprocity is excellent as "a talking point" it will not "go" with the Senate. They tell him that he must not try to effect any legislation which will prove of advantage to Cuba because the party is pledged to protect the sugar interests in this country. On the other hand he is too keen a judge of human nature to minimize the danger of permitting the coming, eminently Republican, Congress to pass into history with a record of having invariably either legislated or failed to legislate in accordance with the desires of the vested interests.

* * *

Senator Aldrich of Rhode Island "read the riot act" to the President on the subject of those reciprocity treaties and Mr. Roosevelt appreciates that practically all hope of their ratification must be abandoned. He also spoke very plainly on the subject of Cuba and pointed to the party platforms of the last decade as evidence that sugar interests must be protected. Mr. Henry P. Oxnard has been in Washington this week and has given notice that any legislation inimical to the sugar interests will be met with a bitter fight. Mr. R. C. Kerens, the member of the Republican National Committee from Missouri, called at the White House and dwelt with much stress upon the western demand for tariff revision. The President has, it is said, requested Secretary Wilson to go out West and try and forestall criticism based on the failure of the reciprocity treaties. At all events Mr. Wilson left for Iowa yesterday and before going he told me that he intended to explain to the people of Iowa the situation in regard to "the continued need of protection" and "the true basis of reciprocity."

* * *

The President has taken the bull by the horns and instructed Secretary Root to try and get along without sending any more troops to the Philippines to take the place of the 10,000 men whose terms of enlistment are about to expire. I understand the President spoke pretty plainly about the reports that had been given out as to "pacification," etc., and also called attention to the fact that the Samar affair showed a sad lack of precaution on the part of the officers.

* * *

The story of a very earnest Cabinet meeting held last week has also leaked out. The story is that the President opened the Cabinet meeting of last Friday with a few very pointed inquiries of Secretary Long in regard to affairs in the Navy Department and the Secretary had to acknowledge a lack of personal information and an amount of trust in his subordinates which was surprising. The President, so the story goes, immediately and peremptorily demanded Admiral Crowninshield's resignation as Chief of the Bureau of Navigation. Secretary Long replied that Admiral Crowninshield has already offered his resignation and that he had remained at his, Long's, request until after the Schley Court of Inquiry should reach a finding. That did not effect the President. He wanted the resignation immediately. Finally Secretary Gage stepped in as peace-maker and suggested that perhaps a transfer that would be in the nature of a promotion would satisfy the President's demand without sacrificing Secretary Long's dignity. This was finally acceeded to and the result was the Admiral's promotion to the command of the European station. The rumor is now current that Admiral Crowinshield's flagship will be manned by the men who were antagonistic to Schley, at least that the quarter-deck will.

* * *

The Commission for codifying the Federal Statutes will, I understand, report to the next session of Congress a law covering all attacks on the President. It was found on examination that in parts of the country an attack on the President which did not prove fatal could not be punished and to remedy this peculiar condition this law was drafted. The law concerns only attacks made on the Chief Executive as such, for any attack made upon personal grounds would come under state jurisdiction. The law provides that any threat against the President, whether verbal or made in writing, shall be regarded as a felony and punishable by a fine of $5,000 and any attack upon his person, whether successful or otherwise, shall meet with capital punishment. The bill further provides that accessories before the fact shall be held to an equal responsibility with the direct assailant.

### End of the Pan-American.

**Financial Loss of Buffalo's Exposition Amounts to $3,000,000.**

The Pan-American Exposition ended at 12 o'clock November 2. At midnight President John G. Milburn pressed an electric button, and slowly, one by one, the lights on post and pinnacle and tower faded away. A corps of buglers standing in the tower sounded "taps," one of the greatest glories of the Exposition, the electrical illumination, passed away, and the Exposition was ended.

The Exposition has not been a financial success, but it is believed its primary object, to advance the friendly relations and commercial intercourse between the United States and the other countries of the two Americas, has been decidedly successful.

The financial loss will be in the neighborhood of $3,000,000. The loss will fall upon the holders of the common stock, the holders of second mortgage bonds and the contractors who erected the buildings. The common stock, at $10 per share, amounting to $210,000, was subscribed for by the citizens of Buffalo and the Niagara frontier in small lots of from one share to one hundred, so that the loss will not be seriously felt by any one.

The first mortgage bonds, amounting to $2,500,000, will be paid in full. An issue of $500,000 second mortgage bonds is unprovided for, but the revenue from salvage on the buildings and from other sources will probably cover a part of this indebtedness.

The total number of admissions for the six months was close to 8,000,000. An average of 2,000,000 a month had been figured on by the Exposition officials. The great snowstorm of last April was a severe blow to the Exposition, and the formal opening was postponed from May 1 to May 20. The lamentable tragedy in the Temple of Music, which robbed the nation of a beloved President, was another blow to the Pan-American. The attendance had been increasing steadily up to the date of the assassination of President McKinley. The gates were closed for two days, and when they reopened there was a drop of 12 per cent. in the attendance and no improvement followed.

### Free Rural Delivery.

Last Friday free delivery was inaugurated in Benton township. Four carriers have been appointed at a salary of $500 per annum each. They leave the Benton post-office at 10.30 in the morning, cover the route, a radius of ten miles and return at 4.30 in the afternoon. The individual mail boxes and collection boxes, numbering one hundred and thirty-seven of the former and nine of the latter have been placed in position. This will be a great convenience to the people residing in the vicinity of the route, as they will now be enabled to receive their mail every day.

### She Wanted Garters.

The Hughesville *Mail* tells of a young woman of that place who recently spent a week or two with way up relations in the city. A day or two after she returned home she went to one of the town stores and said: "It is my desire to obtain a pair of circular elastic appendages, capable of being contracted and expanded by means of oscillated burnished steel appliances that sparkle like particles of gold leaf set with Alaska diamonds, and which are utilized for keeping in position the habiliments of the lower extremities which innate delicacy forbids me to mention."

# REAL PYTHON FEAST

**Why Lieut. Smith and His Sergeant Espoused Vegetarianism.**

**They Appeased Igorrote Etiquette by Eating Two Portions of Roast Snake—Didn't Like Its Taste or Smell.**

"Ever eat any snake?" asked Sergt. Bill Hunter in the Annex grillroom last night of a Chicago Post man who was sitting across the table hearing how L company, Seventeenth regiment, had suppressed the insurrection in Luzon. The newspaper man admitted that he had never eaten any serpent. Sergt. Bill then told him what he knew about boiled python as an entree.

"We did harder things than kill niggers over there," said Bill, "and this was one of them. Lieut. Smith—Ernest G. Smith, a Yale man and a good soldier—with a squad of men was building a bridge somewhere in Tarlac. I was cutting mahogany trees on a mountain side when I saw a big python swing down out of a tree and glower at me as if he didn't like me. He was 16 feet long and as thick as my waist. We shot him nine times before he died.

"As we dragged him into camp that evening to show him to Smith a whole village of mountain dwarfs trailed behind. When we reached the lieutenant's tent the chief, with much ceremony, asked for the carcass, saying that his tribe had watched and waited on the snake a month. He told the lieutenant he wanted to give a python feast.

"Just at that time those Igorrotes were good people to stand in with. If they took a dislike to you they could hide their little bodies in the trees and plug away at you with their bows and arrows and do much damage. So the lieutenant said they could have the snake. The chief then invited him to the feast.

"This was a trifle more than Lieut. Smith had bargained for, but to decline meant to offend the chief. He accepted and asked if he could bring a friend. I was the friend.

WE ATE TWO PORTIONS.

"We went up into the mountain that night after dark. The huts of the village were built in a circle, and in the center were a number of fires. The python had been skinned, carved and divided. Little groups of dwarfs squatted around these fires and cooked the snake. We were escorted to the chief's dining place.

"When they handed me a big chunk of that thing I nearly reneged. It was white, sort of slimy looking and the smell was not pleasant. But I saw the lieutenant bite into his, and I shut my eyes and followed. It tasted like chicken, only it was gamier. We ate two portions, the lieutenant and I, before we were certain that Igorotte etiquette had been appeased. But we never ate any more. Both of us are vegetarians now."

**The Truth**

Is told by most people. If it were not, the whole commercial and social fabric would fall to pieces. There are thousands upon thousands of people who testify to the cures effected by Dr. Pierce's Golden Medical Discovery. They are representative people in their communities. You would believe their word on any question of knowledge. They speak the simple truth when they testify that Doctor Pierce's Golden Medical Discovery cures dyspepsia, "weak" stomach and other diseases of the stomach and its allied organs of digestion and nutrition. It cures when all other remedial means have failed. It cures perfectly and permanently.

There is no alcohol in the "Discovery" it is free from opium, cocaine and all other narcotics.

Accept no substitute for Dr. Pierce's Golden Medical Discovery. There is nothing "just as good."

"I was a total wreck—could not eat or sleep," writes Mr. J. O. Beers, of Berryman, Crawford Co., Mo. "For two years I tried medicine from doctors, but received very little benefit. I lost flesh and strength, was not able to do a good day's work. I commenced taking Dr. Pierce's Golden Medical Discovery, and when I had taken one bottle I could sleep, and my appetite was wonderfully improved. I have taken five bottles and am still improving."

Dr. Pierce's Medical Adviser, paper-covered, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.

### A Retirement Hint.

"So Miss Charming is going to marry old Jimson? She'll look lovely in orange flowers."

"But how much loveller she'll be in weeds?"—Chicago Record-Herald.

### She Knew Him.

He—Have you nothing to say to me, now that I am leaving you forever?

She—Au revoir.—Detroit Free Press.

### Not Guilty as Charged.

Milly—Billy, do you know you've a pretty mouth? It's a pity to waste such a mouth on a man.

Billy—I never waste it on a man.—Town Topics.

### The Trouble.

"What's the matter with you lately? Has she thrown you over?"

"No; that's just what she refuses to do."—Town and Country.

**Barnum's Monkeys**

"All well—all happy—lots of fun". That is the regular report from the monkey cage of Barnum's Circus ever since the keepers began dosing the monkeys with Scott's Emulsion. Consumption was carrying off two thirds of them every year and the circus had to buy new ones.

One day a keeper accidentally broke a bottle of Scott's Emulsion near the monkey cage and the monkeys eagerly lapped it up from the floor. This suggested the idea that it might do them good. Since then the monkeys have received regular doses and the keepers report very few deaths from consumption. Of course it's cheaper to buy Scott's Emulsion than new monkeys—and that suits the circus men.

Consumption in monkeys and in man is the same disease. If you have it or are threatened with it can you take the hint?

This picture represents the Trade Mark of Scott's Emulsion and is on the wrapper of every bottle.

THURSDAY, NOVEMBER 7, 1901.

The estimated plurality for the Republican State ticket is 54,000.

W. W. Hart, Democrat, was elected Judge of Lycoming county over Max Mitchell, Republican.

Judge Savidge is re-elected in Northumberland county, and Voris Auten is elected Assistant Law Judge. Both are Democrats.

Weaver's vote for District Attorney in Philadelphia is 43,667 over Rothermel. The *North American* charges that 50,000 fraudulent votes were cast by the machine repeaters.

On Saturday evening last Hon. Fred Ikeler was among the speakers at the Academy of Music in Philadelphia. His speech was highly complimented by several of the leading city papers. The *Press* says:

"Hon. Fred Ikeler is a Columbia county wonder from an oratorical standpoint. Those who heard him at Harrisburg when he made the Philadelphia Fifth Court bill look like a plugged quarter and a counterfeit nickel, knew what was coming when the eloquent young man from the far banks of Fishingcreek come to the footlights. He made a speech that caught the audience time after time as its applause testified."

The result of the election shows that Mr. Ikeler's efforts, as well as those of all others who were interested in the reform movement, were of no avail. They have the satisfaction of knowing however, that they did their duty.

### THE HALLOWEEN NUISANCE.

Thursday evening and night Philadelphia was treated to its annual dose of the Halloween nuisance. Gangs of boys and girls paraded the streets in many of the residential neighborhoods making the night hideous with their shouts and screams. Front gates were carried off, bell knobs injured and houses invaded with demands for contributions. Most everything movable was carried away or displaced and the slumbers of people were disturbed by untimely noises.

This practice of celebrating Halloween has become a nuisance which demands abatement. If there was ever any authorization for such acts that time has gone by. It is a relic of Pagan days and its celebration would have been discarded long ago had it not afforded an opportunity for pranks and practices that are allowed on no other day or night of the year. The pranks when performed under proper conditions are harmless promoters of mirth. No one but a cynic could object to the "ducking" and "bobbing" for floating apples and the cracking and eating of nuts and the efforts to make them foreshadow the result of love affairs. These methods of celebrating Halloween when properly conducted are above criticism.

Much different, however, are the out-of-door practices when crowds of unruly boys and girls take advantage of the old superstition that spirits walk abroad on Halloween to commit lawless acts and make of themselves an intolerable nuisance. More harm is done, too, than the temporary inconvenience given to householders. Many a boy and girl can date from the liberty given them on Halloween the adoption of habits which have proved their ruin. Parents, usually careful of the company and liberty allowed their children, are persuaded to relax strict rules on this occasion thinking that any harm done will be only temporary. This is a specious argument the fallacy of which appears when results become evident later in life.

Philadelphia is not the only city troubled with this Halloween nuisance. Elsewhere the "fun" has been even of a more boisterous character than here, and two deaths and a number of casualties have been reported so far this year. In Brooklyn a young lad engaged with others in Halloween sport was thrown under a trolley car and killed, and in New York city a girl was so badly injured by the boisterous conduct of some boys that she died a few hours later in a hospital. And a Commissioner of Jurors in Peekskill was tripped by a rope and his skull fractured and his shoulder dislocated. In Chicago Halloween celebration almost reached the dimensions of a riot. Pedestrains were insulted and bruised on the streets and houses and barns set on fire.

In Minneapolis roaming bands of boys have committed so many depredations on private property on Halloween that the authorities have adopted the policy of warning parents that their children will be arrested on that night if they are not kept at home. The Mayor of St. Paul also issued a proclamation on the subject. This method of dealing with the trouble is being adopted in other cities. No one is adverse to sensible celebrations of Halloween. They are among the harmless frolics which help to make life bearable. But they are vastly different from the intolerable nuisances which have been grafted on to the occasion.—*Phila. Press.*

### Notes From the Pennsylvania Experiment Station.

#### The Periodical Cicada or Seventeen Year Locust in 1902.

In the Report of the Pennsylvania State College, 1889, p. 182, an account was given of the nature and distribution of this common and interesting insect. It will be seen by reference to it that the brood of 1885 will be due next year (1902) in the counties of Bedford, Fulton, Huntingdon, Mifflin, Juniata, Perry, Franklin, Cumberland, Adams, York, Dauphin, Lebanon, Lancaster, Berks, Chester, Delaware, Montgomery, Bucks, Lehigh and Northampton.

It is not meant that the Cicadas will appear over the whole of this large area, but that they may be expected wherever the conditions heretofore have been favorable for their breeding and development. Brush covered and woody pasture lands are particularly good breeding places. Inasmuch as seventeen years is liable to make a good deal of difference in the utilization of land, it is quite probable that in some places lands which seventeen years ago were not in cultivation, and were good breeding grounds of Cicadas, are now cultivated. Upon them, and in their neighborhood, the insects, true to their nature, may be expected to appear, perhaps in dangerously large numbers. In many places the older residents are able to locate these grounds. If, now, there should be young fruit trees or shrubs at hand they run great risk of serious injury and multilation by the egg-laying process, since the habit of the Cicada is to select small twigs into which it proceeds to cut in order to make a suitable place for its eggs:

Hence it would be wise for those in the counties named, who contemplate setting out trees this Fall or next Spring, to find out whether they are on or near "locust ground" of seventeen years ago, and if they are, to defer planting a year, or take this risk into consideration.

If it seems best to take the risk it would be well not to prune the trees closely on setting, but to postpone it until after the egg-laying of the Cicadas, which takes place during June. By July 1st at latest, probably two weeks earlier in the southern tier of counties, the egg-laying will have been completed and all its injury accomplished The pruning may then be done and the cut-off twigs burned, thus destroying the eggs of this insect, as well as giving the form and character desired in the young tree.

Nine-tenths of all the destruction caused by insects comes from not "taking time by the forelocks." People wait until a horde of destructive insects suddenly appear, and then comes the pathetic inquiry, "What are they, and how can I destroy them or prevent their attacks?"

Here is a case which is of as regular recurrence as the seasons, and preparation can be made to meet it as one would prepare for spring plowing or for winter's snow. It is true that the coming locust swarm may be reduced in size or numbers, and may even have been exterminated in some particular fields, but should it completely fail it will be for the first time in 187 years, and that is improbable

In addition to the publication referred to excellent accounts of the Periodical Cicada are given in Bulletin 95, and the Annual Report for 1894, of the New Jersey Experiment Station, and also, in Bulletin 87 of the Ohio Experiment Station.

The annual reports and quarterly bulletins of this station will be sent, free of charge, on application, and inquiries on agricultural subjects answered so far as possible.

### Mail Carriers Terrified.

#### They Vow That Martzville Cemetery is Haunted.

The strange happenings on the Berwick free delivery route still continue, and the carriers are becoming much worried, says a dispatch to the Philadelphia *North American* Monday.

Three of them who drive the wagon from Berwick to various points in the country round have had thrilling experiences, and the last is the worst of the lot. A couple of weeks ago a large catamount sprang from a tree at Carrier John Jacoby's horse and seized its head. The horse shook the animal off and dashed down the mountain to Berwick, Jacoby having all he could do to cling to the wagon and trust to luck.

A short time later carrier Henry Tressler's horse stopped short and shied into the bush. Tressler saw an enormous snake in the road, which he described as being as thick as a man's leg. It disappeared in the brush and is supposed to be a python which escaped from a circus at Berwick a year ago.

Carrier O. E. Evans noticed that while passing Martzville Cemetery, in Briar Creek township, his horse acted in a peculiar manner and bolted. This occurred twice before Evans saw the cause of it, and then the other night he beheld a terrifying white object rise at the cemetery fence and wave its arms. He let the horse bolt, and now takes a circuitous route. He says he does not believe in ghosts, and thinks the apparition is some joker with a sheet, but he is not going to take any chances.

The carriers are demoralized by these occurrences, and each is now armed with a double-barreled gun.

After January 1st the railroads will not accept as baggage anything but luggage containing personal effects which accompany the owner. The express companies have been making a kick over the indiscriminate checking of articles as baggage which under no stretch of the imagination could be considered as such

Dark Hair

"I have used Ayer's Hair Vigor for a great many years, and although I am past eighty years of age, yet I have not a gray hair in my head."
Geo. Yellott, Towson, Md.

We mean all that rich, dark color your hair used to have. If it's gray now, no matter; for Ayer's Hair Vigor always restores color to gray hair. Sometimes it makes the hair grow very heavy and long; and it stops falling of the hair, too.

An Ancient Foe

To health and happiness is Scrofula—as ugly as ever since time immemorial.

It causes bunches in the neck, disfigures the skin, inflames the mucous membrane, wastes the muscles, weakens the bones, reduces the power of resistance to disease and the capacity for recovery, and develops into consumption.

"A bunch appeared on the left side of my neck. It caused great pain, was lanced, and became a running sore. I went into a general decline. I was persuaded to try Hood's Sarsaparilla, and when I had taken six bottles my neck was healed, and I have never had any trouble of the kind since." MRS. K. T. SNYDER, Troy, Ohio.

Hood's Sarsaparilla and Pills

will rid you of it, radically and permanently, as they have rid thousands.

### THANKSGIVING.

#### The President's Proclamation.

President Roosevelt issued the following proclamation on November 2.

A PROCLAMATION.

The season is nigh when, according to the time-hallowed custom of our people, the President appoints a day as the especial occasion for praise and thanksgiving to God.

This Thanksgiving finds the people still bowed with sorrow for the death of a great and good President. We mourn President McKinley because we so loved and honored him; and the manner of his death should awaken in the breasts of our people a keen anxiety for the country, and at the same time a resolute purpose not to be driven by any calamity from the path of strong, orderly, popular liberty which as a Nation we have thus far safely trod.

Yet in spite of this great disaster, it is nevertheless true that no people on earth have such abundant cause for thanksgiving as we have. The past year in particular has been one of peace and plenty. We have prospered in things material and have been able to work for our own uplifting in things intellectual and spiritual. Let us remember that, as much has been given us, much will be expected from us; and that true homage comes from the heart as well as from the lips and shows itself in deeds. We can best prove our thankfulness to the Almighty by the way in which on this earth and at this time each of us does his duty to his fellowmen.

Now, therefore, I, Theodore Roosevelt, President of the United States, do hereby designate as a day of general thanksgiving, Thursday, the 28th of this present November, and do recommend that throughout the land the people cease from their wonted occupations, and at their several homes and places of worship reverently thank the Giver of all good for the countless blessings of our national life.

In witness whereof I have hereunto set my hand and caused the seal of the United States to be affixed.

Done at the city of Washington, this second day of November, in the year of our Lord one thousand nine hundred and one and of the independence of the United States the one hundred and twenty sixth.

THEODORE ROOSEVELT.
By the President,
JOHN HAY, Secretary of State.

A curfew law is among the probabilities for Plymouth, according to the Wilkes-Barre *Record*. Inside of a few weeks the people of Plymouth will be experiencing the greatest reformation ever in its history and one that will be looked upon with interest by the people of the county, if not the State. At a meeting of the council held recently a resolution calling on the borough attorney to prepare a rigid curfew law was unanimously passed. For a curfew law it is unusually strong on account of the advanced age which is set for children to be off the street. The ordinance will also cover the dance hall nuisance and, in all, the Plymouth borough fathers expect to turn the town into the most moral municipality in the county. The pastors and press of both the town and county are called upon to indorse the first curfew law ever tried in Luzerne county. The resolution that was passed is as follows: "Resolved, That the borough attorney draw up an ordinance and submit the same at the next meeting of council, requiring all children under the age of 16 years to be off the public streets when the fire gong blows nine taps, which will be at nine o'clock each evening, and that all children under the age of 18 years be off the streets of Plymouth borough at 10 o'clock, unless accompanied by a member of his or her family over 21 years of age. Also an ordinance prescribing a minimum age of attendants at public balls or dances. Second—The hour at which balls or dances shall close. Third—Requiring a license for the privilege of holding the same, with name of hall and managers in which same is to be held. Fourth—Requiring the attendance of a police officer to be detailed by the chief of police and such other requirements as will in the judgment of the borough attorney be necessary to prevent the evils now resulting from public balls and children running the streets at all hours of night."

A good sized audience was present at the Baptist Church Monday evening to hear Dr. Flippo deliver his lecture on "Keys to Unlock Hearts." The speaker won his audience by his wit, pathos and pointed logic. His words were marked by force and definiteness. Everybody was pleased with the address.

Many of the farmers in the surrounding valleys are putting up trespass notices notifying hunters not to tramp over their land in search of game. Since the enactment of the new trespass law by the last legislature the farmers are well protected and it would be well for sportsmen to remember this.

Rally Day in the Lutheran Sunday School of this town will be next Sabbath from 9 a. m. until 10.30. It will be on Luther Day, and the exercises will have a touch of Reformation history. The eleventh annual Convention of the Woman's Home and Foreign Missionary Society, of the North Branch Missionary Society, was held at Shamokin last week, Thursday marked the closing session at which time the election of officers for the ensuing year occurred. Mrs. J. Yutsey, of Selinsgrove was made president, Mrs. W. C. McConnell, Shamokin vice president, Miss Martha Dimm, Selinsgrove, secretary, Mrs. E. B. Guie, Catawissa, treasurer and Mrs. F. H. Horace Lutz died of consumption in Denver, Colorado, on Saturday in the fifty-fifth year of his age. He was a native of Bloomsburg and will no doubt be remembered by many of our readers. He was a son of E. P. Lutz, who for many years conducted a drug store in what is now Moyer Bros'. building below the Post office. Horace was also a druggist, and had been engaged in that business in Wilkes-barre for many years. Many of his relatives reside in Bloomsburg.

Phinney's United States Band has been engaged to give a concert in the Normal Auditorium Saturday afternoon, November 16. This is probably the finest musical organization that has ever come our way. The diagram of seats will open at Bidleman's book store on Wednesday, November 13, at half past four o'clock. All those who wish to have their seats reserved should be on hand early, as the demand will, in all probability, be great. The admission has been placed at 25 cents.

A fair-sized audience gathered at the Opera House on Tuesday evening to listen to Hon. Henry B. Clifford, whose subject was "Copper Fortunes, or the manner in which the Bonanza Kings made their fortunes." The object of the address was to interest people in the Queen of Arizona Copper Co., and it was entertaining and instructive. Diagrams and pictures were thrown upon a screen by a stereopticon showing different mines, their productions, values, etc. Mr. Clifford is entirely conversant with his subject and talks in a pleasing manner. He referred several times to the Green Consolidated Copper Co. as one of the great companies, and he also gave some good advice by telling the holders of any mining stocks not to get frightened every time there is a fluctuation in the market.

### This Man is a Wonder.

#### Is Buried Alive for Twenty-Four Hours. Will Repeat the Experiment.

William W. Kretz, president of the Reading Society of Occult Science, who was buried alive for twenty-four hours while in a hypnotic state, is considering a plan to repeat his experiment, but expects, next time, to remain underground for thirty-six or forty-eight hours.

Persons who witnessed his recent performance on Mt. Penn think he can accomplish the undertaking.

Kretz refuses to reveal his new plans, except to say that, as before, he will be hypnotized, placed in a burial case, and covered with six feet of earth.

As the authorities forbade the experiment within the city limits on the former occasion, Kretz is silent about the place where the second burial will take place. There will be reliable witnesses, however, to testify to the genuineness of the feat.

Take your bike to the Bloomsburg Cycle Works, rear of Moore's store, for all repairs.

### Well Known Horseman.

William M. Hughes, of Hazleton, has been in failing health for the past year. He has been a sufferer from neuralgia for a long time. Some ten years ago he submitted to an operation and for a time was much relieved, but of late the disease has again taken hold, causing him much trouble and continued pain. In 1874 he was one of the promoters of the Hazleton Race Track Association, in which he took much interest and over which track many races took place. Mr. Hughes was the owner of the famous pacing mare Little Mary, that won nearly all the races she took part in in this and other cities. She was a sorrel mare of the kindest disposition and a favorite among the horsemen from 1873 to 1876. He sold her, much against his inclination, but the big price was the reason. After he parted with her she became famous on some of the Grand Circuit race tracks.—*Wilkes-Barre Record.*

### Aged Resident Called From Earth.

Centre township is mourning the loss of a good citizen in the person of David Z. Remaly, whose death occurred at his home near Foundryville, Sunday afternoon. He had resided in that township for many years and died enjoying the respect and esteem of all who knew him. The cause of his death was a complication of diseases, in connection with a breaking down of the system, superinduced in a measure, no doubt, by advanced age, he being about 78 years old. He was a farmer and followed that occupation all his life.

The surviving family consists of a wife, two daughters and one son. The former is quite seriously ill, with little hopes of recovery. The funeral took place Tuesday afternoon.

### Looked Upon as a Formidable Aggregation.

That the Normal School foot ball team is regarded as a pretty strong proposition is shown by the following item which we take from the Mt. Carmel *Daily News*.

"The opponents of the High School team next Saturday will be the strong Bloomsburg Normal School team. This team is not a team of boys who are just learning the rudiments of the game but rather, a team of men who have one of the best coaches in the state, outside of the large college elevens. They ran up 52 points against Orangeville and played an 18–12 game with the strong Hazleton team. It will be a battle royal and undoubtedly will be the hardest game seen on the local grounds this year."

The gentlemen escaped with their bodies intact, but it is not likely that they would care to go through the ordeal again. The wagon was badly used up.

## Dickinson So Reports Regarding the Missionaries.

## CONSULTING WITH THE BRIGANDS.

**The Band Had Planned to Capture Another Missionary at Salonika, but the Scheme Failed.**

SOFIA, Bulgaria, Nov. 6.—United States Consul General Dickinson of Constantinople has returned here from Samakov. He authorizes the statement that he is satisfied that both Miss Ellen M. Stone and her companion, Mme. Tsilka, are alive and well treated.

The exchange of communications with the brigands is still going on. It has been ascertained that the band intended to kidnap Mr. House, missionary at Salonika, at the same time that Miss Stone was carried off, but the design failed.

Two days before Miss Stone was abducted brigands fired five shots at a gendarme near Raslog, and the local authorities, knowing there were bandits in the neighborhood, should have supplied an escort.

**The Schley Court.**

WASHINGTON, Nov. 6.—The time of the Schley court of inquiry was entirely devoted yesterday to hearing argument in the case of Admiral Schley. Mr. Hanna finished his argument in behalf of the department which had begun Monday, and Captain James Parker began, but did not conclude, his presentation of the case for Admiral Schley. Mr. Hanna considered the retrograde movement, the bombardment of the Colon and the charge made against Admiral Schley of disobedience of orders. Captain Parker had only reached the coaling question when the court adjourned. He defended the conduct of his client at all stages of the campaign so far as he went. It is expected that Captain Parker will conclude his speech today, when Mr. Rayner will begin.

**Mysterious Nobleman In Montreal.**

MONTREAL, Nov. 5.—Prince Ranjit of Baluchistan, the mysterious Indian whom nobody in London could account for, who arrived here with a party of twenty-eight retainers, including a dancing girl, Bahar Bux, and his secretary, Mr. Gosh, is stopping at the Windsor hotel. He is confined to his room and refuses to see anybody, although there have been many callers. The dancing girl and five of the menservants are staying at the Windsor with the prince, the others being scattered around town. Only two or three of them come from Baluchistan, the others having been picked up along the road. Nothing can be learned of his future movements.

**Lipton Welcomed Home.**

LONDON, Nov. 1.—Immediately after his arrival in London Sir Thomas Lipton drove out to his suburban residence, Osidge, at Southgate. An assemblage of friends and neighbors met him about two miles from the house with a band, unharnessed the horses and drew the carriage home. Responding to an address of welcome presented on behalf of the village of Southgate, he said he had hoped to drink from the cup in Southgate, but it had stuck in spite of the jerk he had given it. "I mean to lift it yet," he said in concluding his speech of thanks.

**Testimony All In.**

WASHINGTON, Nov. 5.—The Schley court of inquiry reached the argument stage at the beginning of the afternoon session yesterday. The morning sitting was devoted to listening to Admiral Schley and Captain Sigsbee in making corrections of their testimony which had been given previously and the introduction by Judge Advocate Lemly of numerous documents bearing upon different phases of the inquiry.

**Tortured by Burglars.**

MASSILLON, O., Nov. 4.—Balser Race, his wife and two sons, living near this city, were tortured by burglars until they gave up over $1,000 in certificates of deposit and $40 in money. The burglars set fire to the hair of their victims and threatened to roast them alive. One of Race's sons may not recover. The burglars escaped in vehicles stolen from Mr. Race.

**Back From Dawson.**

PORT TOWNSHEND, Wash., Nov. 6.—The steamer Dolphin has arrived from Skaguay, bringing 130 passengers, most of whom are from Dawson and are the last to come up the river before the close of navigation. Passengers report that Dawson has practically gone into winter quarters, and active preparations have been made for winter mining.

**The Yale-Harvard Debate.**

PRINCETON, N. J., Nov. 6.—It is announced that Yale has chosen the negative side of the question for the Yale-Princeton debate to be held here Dec. 6. The question is, "Resolved, That the adoption of the fifteenth amendment of the constitution of the United States has been justified."

**Ovation For Sousa's Band.**

LONDON, Nov. 4.—Sousa's band received a memorable ovation at the close of its engagement at the Glasgow exhibition. The crowd wanted to carry the conductor on their shoulders. Mr. Sousa began a tour of the provinces today at Middlesborough.

**Frost In Texas.**

DALLAS, Tex., Nov. 6.—Reports from points in Texas show that there has been a frost. This practically ends the top crop of cotton in northern and central Texas.

## HEAVY BRITISH LOSS.

**Fifty-four Killed and One Hundred and Sixty Wounded.**

LONDON, Nov. 2.—The following is the text of Lord Kitchener's dispatch, dated Pretoria, Nov. 1:

"I have just heard of a severe attack made on the rearguard of Colonel Benson's column when about twenty miles northwest of Bethel, near Brakenlaagte, during a thick mist.

"The strength of the enemy is reported to have been a thousand. They rushed two guns with the rearguard, but it is uncertain whether they were able to remove them.

"I fear our casualties were heavy. Colonel Benson was wounded, but not severely. A relieving column will reach him this morning."

Later Lord Kitchener telegraphed as follows:

"Colonel Barter, who marched from the constabulary line yesterday, reached Benson's column early this morning unopposed. He reports that Colonel Benson died of his wounds.

Lord Kitchener then gives the names of thirteen other officers who were wounded, most of them severely, and announces that fifty-four noncommissioned officers and men were killed and 160 wounded, adding that four of the latter have since died of their wounds.

**London In a Fog.**

LONDON, Nov. 5.—A fog such as Great Britain has not experienced for years enveloped London and half of the United Kingdom yesterday, blockading shipping, deranging railways and throwing business in London, Birmingham and other provincial cities into confusion.

So dense was it that a walk into the streets was an adventure. The fog descended upon the metropolis and the suburbs so thickly that between 4 and 5 o'clock in the afternoon the principal avenues of traffic resembled the steamroom of a Turkish bath.

**X Rays Cure For Cancer.**

CHICAGO, Nov. 2.—Dr. J. E. Gilman, senior professor of materia medica in the Hahnemann Medical college of Chicago, who through the agency of X rays is said to have affected a permanent cure of cancer of the breast, from which Mrs. Orrin W. Potter of this city had been a sufferer for years, described his treatment yesterday. "I believe this treatment is an absolute cure for all forms of cancer," he said. "I do not know what its limitations are. In the particular case of Mrs. Potter the X ray was applied every day for a period of three months. At the expiration of that time she was cured absolutely."

**Scranton Car Dynamited.**

SCRANTON, Pa., Nov. 6.—A northbound car of the Scranton Railway company, while going from this city to Carbondale, was dynamited at the upper end of Mayfield and hurled crosswise of the tracks. The windows and the front platform were shattered. The motorman, a nonunion man, was hurled into the street and severely bruised. The conductor escaped unharmed. Two Italian trackmen in the car were thrown from their seats and injured. This is the first outrage of the kind in connection with the strike of the company's employees.

**Human Trunk In a Barrel.**

CHICAGO, Nov. 6.—The body of a man about thirty years of age, whose head had been almost cut off, was discovered in a flour barrel on a strip of prairie near Rice street and Western avenue. The victim's feet were securely bound together and the body doubled in a sack, from which it was apparent that his slayer or slayers had experienced difficulty in forcing the body into the barrel. Besides the wound in the neck, the face had been gashed and disfigured.

**Public Debt Statement.**

WASHINGTON, Nov. 2.—The monthly statement of the public debt shows that at the close of business Oct. 31, 1901, the debt, less cash in the treasury, amounted to $1,022,032,957, a decrease from last month of $9,563,408. The cash in the treasury is classified as follows: Gold reserve fund, $150,000,000; trust fund, $803,897,089; general fund, $148,310,584; in national bank depositaries, $110,840,438; total, $1,213,048,111.

**Postoffice Robbed.**

CHATTANOOGA, Tenn., Nov. 6.—The postoffice inspectors here have been advised that the postoffice at Montevale, Ala., was robbed on the night of Nov. 2. The safe was blown open, $100 in cash besides the stamps being taken. It was also reported that the office at Oakmore, Ala., was robbed.

**A Poor Girl Made Rich.**

MIDDLETOWN, N. Y., Nov. 2.—Sadie Winslow, daughter of a poor farmer at Sacketts Lake, Sullivan county, has fallen heir to a fortune of $125,000 through the death of her uncle, John Winslow of Los Angeles, Cal.

**Quite the Contrary.**

"I wish you would make cautious inquiry," said the editor of the Morning Thunderbolt, "and find out whether or not there is any foundation for the story that got into our columns this morning about Col. Biggun, of Outsomehurst, having served a term in the penitentiary for bigamy when he was a young man."

"I suppose it's important if true," hazarded the new reporter.

"Not at all," snorted the editor. "It's important if it isn't true."—Chicago Tribune.

**Would Return the Favor.**

Father—My dear sir, you performed a noble act of heroism this morning in saving my daughter from drowning.

Young Man—It was a narrow escape for the young lady.

Father—It was, indeed. I want to thank you, young man, and assure you that if I ever see any of your family in a similar predicament it will be my pleasure to reciprocate.—Leslie's Weekly.

**A Good Friend.**

Slowboy—I hear you ran down an old gentleman with your automobile.

Scorcher — Yes, broke one of his legs, dislocated his shoulder, and bruised him pretty well generally.

Slowboy—That's too bad. And now you expect a suit for damages, I suppose?

Scorcher—No; the old fellow is a very good friend of mine.—N. Y. Times.

**Happy Thought.**

"I wish I could think of some new and unusual birthday present to surprise mamma with this year," said Miss de Muir, wrinkling her fair brow in deep perplexity.

"How do you think she'd like a son-in-law?" hoarsely whispered young Spoonamore, falling readily into the only line of thought that seemed to suggest itself.—Tit-Bits.

## FEMININE PERQUISITES.

**Women Drummers Do Not Have to Drink or Smoke to Get a Treat on the Road.**

In these days of feminine enterprise, when women are entering the fields hitherto occupied exclusively by men, it is natural that they should seek the employment of commercial travel. One of the most successful drummers in the west is a woman, who describes with keen interest her first experience in selling goods, says Youth's Companion.

It was the custom of a certain hotel, she says, to treat its traveling salesmen when they paid their bills. Accordingly, after I had settled my account, the proprietor looked at me in a puzzled sort of way and asked:

"Will you have anything to drink?"

I laughed and declined, and more embarrassed than ever, he returned to the charge:

"I don't suppose you could use a cigar?"

Again I laughingly declined. He studied over the situation for a moment; then his face brightened.

"I know you'll take some gum," and he handed me a package. In point of fact, I have no taste for gum and never use it; but it would have been cruel to refuse, so I accepted it with as pleasant a smile as possible. Ever since that time I have been sure of a parting gift of gum from that hotel. So you see that the woman drummer is not without her perquisites.

## KEEP BATS IN THE HOUSE.

**People Who Think They Destroy Mosquitoes and All Other Insects in the Air.**

"Down in the Neck," said an old resident of Long lane, according to the Philadelphia Record, "the people have no terror of bats, not even the women folk. In fact, bats are encouraged just as soon as the mosquitoes make their appearance in the early summer.

"Now, there's Mrs. Young, who lives in the lane. She says she is really fond of bats. She had two sheltered behind picture frames in her parlor all last winter. When spring came and she heard them rustle, she moved the frames and let them out of the window at night, and recently they came back with a family of three young ones. In one night they cleaned out all the mosquitoes from the second story, and the next night she shut the second story windows and opened those on the top floor. The bats came in and devoured all the mosquitoes there.

"Old Neckers never drive a bat out of the house, for, contrary to popular belief, the creatures are quite harmless and keep the air clear of all insects. They are not covered with vermin, as some people think, but, on the contrary, have a fur as soft as sealskin, with a clean skin underneath. I'd rather have bats in my house any time than mosquitoes."

**Rural Night Telegrams in England.**

The British post office is about to try the experiment of giving the rural districts the benefit of a night service of telegrams, says a London correspondent. At present all rural districts are shut off from telegraphic communication with the outside world from eight p. m. till eight a. m. next morning. The experiment, however, is to be tried in villages where the parish council asks for it and are willing to pay a guarantee fee against loss, and is to be weighted with the charge of a late fee for delivery on each message.

## TOO YOUNG TO ELOPE.

**Chicago Girl Invokes Magistrate's Aid in Dealing with Her Importunate Swain.**

According to the Chicago American Amelia Gustella, a pretty, dark-haired Italian girl, gazed in anger upon Louis Frank and explained to Justice Dooley that the young man had sought to induce her to elope. Amelia, however, has no desire to leave her happy home, and so told Frank.

"I love you desperately," the young man is quoted as having said. "I here declare my love for you, and I want you to flee with me to-night."

Amelia could not give a decided answer. She would think it over. The

"I AM TOO YOUNG TO ELOPE."

suspense, it is said, proved so great for Frank that he walked up and down in front of the house no less than nine times in as many minutes.

Amelia spoke to her father. The parent became angry. He had once ordered the suitor for his daughter's hand from the house. Frank had boarded with the family, and it was there that he learned to think well of the dark-haired daughter of the host. Finally the proposition to elope came and then two sharp detectives took the unhappy man to a dark cell in the Maxwell street station.

Justice Dooley was told all about it. Frank said he loved the girl, and he believed she loved him.

"The whole trouble is that the father of the girl insists on interfering with us," said the defendant.

"Yes," said his honor. "There are a whole lot of fathers interfering, and I guess many of them are justified. It appears that this girl is but 16 years old. She says she does not care for you and has no desire to become your wife. You will, therefore, let her alone."

"Yes, I wish he would let me alone," said the girl. "I am too young to elope, and I want nothing to do with him."

The justice continued the case.

## ILLINOIS SNAKE STORY.

**Country Printing Office Invaded by a Reptile Which Is Fond of Catching Mice.**

Here is a snake story from the Lacon (Ill.) Journal: "Every well regulated printing office has a watering can in which water is kept to wet the type. For want of a better place, the one in the Home Journal office is usually kept on a window sill on the north side of the room. One day during the recent drought two of our printers were sitting on their stools at this window sticking type, when they were nearly petrified by the sight of a snake

TOOK A GOOD DRINK.

protruding its head above the sill from the outside. The boys almost broke their necks in getting away. Reaching over into the pan the snake took a good drink, and before the startled printers could secure a club with which to dispatch the reptile it had disappeared. The next day at the same hour the snake came for another drink, and that was repeated the third and fourth days, but the last time it was attacked from the rear by a big black Thomas cat that makes its home at Lester's livery barn, next door. It was a lively fight for a few seconds, but the cat was too much for the snake, although it was fully four feet long, and the reptile made a shoot for the rear of the office. The cat was after it like a streak of lightning, but the snake found a hole in the brick wall and disappeared under the building. That was two weeks ago. Before that time the printing office was overrun with mice, but since then there hasn't been a mouse about the place. Any of our readers who are troubled with mice are cordially invited to come and borrow our snake for a few days."

**Ten Million Years More.**

A German scientist, sweltering in Berlin on a very warm day, hopefully looked forward to the time when the sun's heat will be much less than it is at present. This desideratum is announced to occur in about 10,000,000 years.

There's a story of a farmer and his son driving a load to market. Of the team they were driving one was a steady, reliable old gray mare, the other a fractious, balky black horse. On the way the wagon was stalled and the black horse sulked and refused to pull. "What'll we do, father?" said the younger man. "Well," said the father, "I guess we'll have to lay the gad on the old gray." That homely compliment to women: "The gray mare's the better horse," suggests how often when there's an extra strain to be borne it is laid on the woman's back. How often she breaks down at last under the added weight of some "last straw." Women who are dragging along wearily through life can gain real strength by the use of Dr. Pierce's Golden Medical Discovery. It puts back in concentrated form the strength making material which working women use up more rapidly than it can be restored by nature in the ordinary processes of nourishment and rest. Dr. Pierce's Pleasant Pellets are universal favorites with women because they are easy to take and thoroughly effective in curing the consequences of constipation.

Some men bear the same relation to life as the vermiform appendix to the human anatomy.

TWENTY YEARS OF VILE CATARRH.—Chas. O Brown, journalist, of Duluth, Minn., writes: "I have been a sufferer from throat and nasal catarrh for over twenty years, during which time my head has been stopped up and my condition truly miserable. Within fifteen minutes after using Dr. Agnew's Catarrhal Powder I obtained relief. Three bottles have almost, if not entirely, cured me." 50c.

The people who claim that marriage is a failure are usually the people who have never tried it.

Two things in the treatment of nasal catarrh are now fully understood. First: The drying process is a delusion that produces more mischief than benefit. Second: Science, common sense and experience, proclaim Ely's Cream Balm to be instant relief, and final, certain cure. It cleanses the diseased membranes and never makes the patient sneeze. Price, 50 cents. Sold by druggists and by Ely Brothers, 56 Warren street, New York.

Men have been known to lose on dead sure things.

The Thanksgiving number of the "Ladies' Home Journal" is replete with good fiction and interesting and novel features. It opens appropriately with an article which tells "Where the President's Turkey Comes From." Then there are delightful stories by Hezekiah Butterworth and Laura Spencer Portor, and a new love story called "Christine," by Frederick M. Smith. Cleveland Moffett has an interesting story about Ira D. Sankey, the great evangelist, and Edith King Swain recounts the famous ascents she has made in various parts of the world. Will Bradley's original designs for a house begin with the breakfast-room, and Wilson Eyre, Jr., presents plans for a country-house and a garden. Mr. Bok gives much good advice to young married couples in his editorial. Another most timely feature is "Why Should a Young Man Support the Church?" by the Rev. Francis E. Clark. Many home-made Christmas gifts are shown, and the first of "The 'Journal's' Amusing Puzzles" appear. The regular departments are exceptionally good and the illustrations superb. By the Curtis Publishing Co., Philadelphia. One dollar a year; ten cents a copy.

# HOW STATES VOTED

## Nash Re-elected Governor In Ohio Over Kilbourne.

## MURPHY CHOSEN IN NEW JERSEY.

**Heavy Vote In Massachusetts—Crane Again Chosen—Large Majority For Cummins In Iowa—Light Vote For Gregory In Rhode Island.**

COLUMBUS, O., Nov. 6.—Latest returns indicate Republican gains in Cincinnati, Cleveland, Toledo, Dayton, Zanesville, Portsmouth, Canton, Springfield and other cities, the single exception being Columbus, the home of both Governor Nash and Colonel James Kilbourne, the Democratic candidate for governor.

The greatest Republican gains are outside of the large cities. Some of the Democratic counties report the largest Republican gains. Another exception in the rural districts was found in Pike and Adams counties, which jointly elected a Democratic member of the legislature for the first time in eight years.

The Democratic state committee has no claims to make on the state ticket or the legislature. Colonel Kilbourne said he felt better over carrying his home of Franklin county with a Democratic gain of over 3,000 than if he had been elected governor without carrying Franklin county. Chairman Dick at 10 o'clock gave out a statement that the Republicans had carried the state by over 50,000, with a decisive majority in each branch of the legislature.

### CRANE RE-ELECTED.

**A Large Vote In the Bay State For an Off Year.**

BOSTON, Nov. 6.—With no state or national issues and but few local contests to arouse interest, there were more ballots cast in the state election than in any off year in the history of the state. The total vote exceeded 300,000.

As usual, the Republicans had no difficulty in carrying the state, W. Murray Crane of Dalton being elected governor for the third time by practically the same majority as when he first ran for the office in 1899.

The state legislature of 1902 will be strongly Republican, although the Democrats gained a few votes. Josiah Quincy, the Democratic candidate for governor, ran about 10,000 behind the vote cast for the party candidate in the presidential election last year, but he so materially increased the Democratic vote in Boston as to give the local leaders great confidence for a party victory in the municpal election next month.

**The Vote In Pennsylvania.**

PHILADELPHIA, Nov. 6.—Notwithstanding the intense interest the election in this city was conducted generally in an orderly manner. There were, however, numerous disputes at polling places, and in a number of instances the disputants came away with broken heads, but no very serious rows occurred anywhere. The regular Republicans and the fusionists charge each other with wholesale fraud and promise to make numerous arrests. There were many arrests for violations of the election laws, but in nearly every case the offender was promptly bailed out by political friends. The polls did not close until 7 o'clock, and returns came to the various political headquarters very late. In the absence of sufficient figures the city chairmen of the several political parties continue to claim that their candidates have carried the city. Scattering returns indicate that Potter (Rep.) for supreme court is being cut to some extent all over the state. Returns are unusually slow and very late. The counting of the vote on the proposed constitutional amendments in the interest of ballot reform adds to the work of the election officers. The Republican city chairman claims the election of Weaver by from 35,000 to 50,000 plurality.

**The Election In Mississippi.**

JACKSON, Miss., Nov. 6.—The weather was clear and cold, but as only the offices of state treasurer and secretary of state were to be filled little interest was manifested in the election. Private telegrams from the larger towns indicate that the temporary incumbents, George W. Carlisle and Joseph W. Powers, who are appointees of Governor Longino, have been elected state treasurer and secretary of state respectively. Full returns will not be received for a day or two, as numerous precincts are off the railroads and without telephone connections. All the candidates were Democrats.

**Nebraska Republican.**

LINCOLN, Neb., Nov. 6.—Indications based on scattering precinct returns are that Nebraska has reaffirmed her verdict of last year in favor of the Republicans. Figures, mainly from the smaller towns and a few country districts, show a Republican gain of 4 to the precinct over a year ago, when the average Republican majority was 8,800. If these gains are sustained, Sedgwick (Rep.), for supreme court justice, will carry the state by from 6,000 to 10,000. At Republican headquarters the claim is made of 10,000, but the indecisiveness of the figures is admitted.

**Iowa's Large Plurality For Cummins**

DES MOINES, Ia., Nov. 6.—Returns from this state came in very slowly, the polls having been held open until 7 o'clock in most precincts. The figures generally show a Republican gain which, if continued in the same ratio, will make about 31,000 net Republican gain in the state and give Cummins, for governor, a plurality of 87,000.

**Maryland Elections.**

BALTIMORE, Nov. 6.—Returns at hand show a tremendous falling off in the vote both in the city and the counties and indicate that the Democrats have been victorious in both city and state, although it is impossible to give any figures because of the meager returns. It seems highly probable that no more than 75,000 votes have been polled in Baltimore as against 110,000 cast two years ago at the municipal elections.

### MURPHY ELECTED.

**Indications Point to Republican Plurality In New Jersey of 7,000.**

NEWARK, N. J., Nov. 6.—The returns received from all points in the state indicate that Murphy, Republican, for governor, has been elected and that the election is now simply a matter of plurality. The returns thus far received indicate that Murphy will have a larger plurality in the state than Voorhees did three years ago. The Republicans claim the state by 10,000.

FRANKLIN MURPHY.

The returns thus far indicate the election of Murphy by at least 7,000.

The returns show that Seymour, Democrat, for governor, carried Hudson county by 6,000 to 8,000 and that Fagan, Republican, was elected mayor of Jersey City.

In this city Seymour lost his own district. The vote stood: Murphy, 348; Seymour, 197.

Essex county went for Murphy by probably 8,000. The Democratic county committee "lay down" and did nothing for Seymour.

**Light Vote In Rhode Island.**

PROVIDENCE, R. I., Nov. 6.—It is generally conceded that Governor Gregory and the Republican state ticket are elected by a plurality of about 5,000. This is a loss of some 3,000 from last year. The vote polled through the state was light.

**Democrats Won In Virginia.**

RICHMOND, Va., Nov. 6.—Returns are coming in slowly and are insufficient on which to base majorities, but all indications point to victory for the Democrats.

**A Boer Colony In Wyoming.**

CHEYENNE, Wy., Nov. 1.—A number of Hague bankers and other wealthy men of Holland are making arrangements to establish a colony of Boers and Holland Dutch in Wyoming. A tract of 300,000 acres has been secured in the valley of the Green river in Sweetwater county, southern Wyoming. Surveys have been made for a gigantic canal and irrigation system, and construction is to be commenced at once. The prospective settlers are now being brought over to do the work. Tests have been made which show that the soil is especially well adapted for beet sugar culture, and a large beet sugar factory will be established in the colony.

## IN THE WINTER.

**(Benson's Plaster Is Pain's Master.)**

For coughs and colds Benson's Porous Plasters are an incomparably better remedy than any other—external or internal. Their medicinal properties enter the skin and *go straight to the seat of the disease.*

They relieve and cure a "seated" cold without disturbing the system or upsetting the stomach. Cough mixtures often nauseate. Benson's Plasters are medicinal in the highest degree, and quickest to act.

Placed on the chest or back or on both at once in serious cases, the good effect is felt immediately. The congestion yields, the cough abates and the breathing improves.

Lung or bronchial affections or kidney disease, are cured with the least possible suffering and loss of time.

Benson's Plasters are immeasurably superior to Belladonna, Strengthening, Capsicum or any other combination in plaster form. They are also preferable to ointments, liniments and salves.

# THROBBING

## Thousands of Women Cured of Sick Headache by Dr. Greene's Nervura.

"This head will be the death of me and I don't care how soon. I don't want to try to drag through life with pain like this." Are lines coming into your face? Is your beauty going from you? Think for one moment of the great multitude of women, suffering in just this way, who have been cured by Dr. Greene's Nervura blood and nerve remedy. There is absolute certainty of help in this grand medicine. Here is an instance.

Miss Agnes Graham, 403 W. 28th St., New York City, says:

"For years I endured the greatest agony with sick headaches. My head would throb so that every step I took was positive torture. When I went home, after work, I felt as though I never could get there. It seemed to me that every step must be my last, and when I tried to go up stairs my head ached so badly I thought I would have to scream.

"Nothing I took helped me. The headaches returned all the time, and I despaired of ever getting over them. My back ached, too, and often I felt so tired and weak it seemed as though I could not go to work. I was badly run down, and in a very nervous condition.

"But I am thankful to say that these terrible headaches have left me, now that I have taken Dr. Greene's Nervura blood and nerve remedy. I cannot say too much for what it has done for me. I began to feel its good effects from the first dose.

"After the first bottle, my nervousness was gone, and I had but one attack of headache since taking Nervura. I have now taken four bottles and have had no return of the trouble."

Just one bottle of Dr. Greene's Nervura blood and nerve remedy will do you so much good that you won't feel like the same woman. Try it and see. If you have complications, get Dr. Greene's free advice by call or letter. His address is 101 Fifth Ave., New York City.

William Morgan died at his home in Nanticoke Thursday of last week. The remains were brought to Bloomsburg on Saturday and interred in Rosemont Cemetery. Twenty years ago he lived out at Iron Dale. He moved from there to Nanticoke where he resided with his family consisting of a wife and four children, up to the time of his death.

### Telephone Branch Line Completed.

**Can Now Talk Direct with Ashland, Centralia and other Towns Previously Isolated.**

A construction gang of fifteen men under Superintendent J. P. Aiken who are putting the finishing touches on the new branch of the United Telephone & Telegraph Company which will connect Danville and Ashland arrived in Danville after dark last Monday evening.

The new line, which is twenty miles long, has been in course of construction for some four months. The workmen, who are now engaged in stringing the copper wire reached a point within two miles of Danville Monday. By Saturday next it is thought that the new branch will be in working order.

The completion will not only give us direct communication with Catawissa and Ashland, but will also bring into the service a large territory which heretofore has known nothing of the advantages of telephone or telegraph communication.

Among the new towns that Danville can talk to are Slabtown, Numidia, Aristes and Centralia. As is natural in these isolated localities the residents welcomed the telephone with opened arms as an agency calculated to bring an added charm into their daily life. Twenty subscribers were secured before the completion of the line and as is natural after the value and convenience of the service is fully demonstrated the patronage will increase many fold.—*Danville News.*

### Hicks For November.

**He Predicts a Stormy Month—Thunder Storms and Snow Storms.**

The stars in connection with Friday and Saturday, the 1st and 2nd, indicate that a reactionary disturbance will be central on those dates, causing a rise in temperature, falling barometer and scattering storms and squalls of rain and snow from about the 1st to the 3rd.

A sharp, sudden rise of the barometer and change to colder will follow close after these disturbances, but as sudden change back to storm condition will come about the 5th in western extremes. About Wednesday the 6th to Sunday the 10th, storms of wind, rain and snow will make their transit from west to east across the country.

Only a brief intermission will intervene between this vulcan period and the reactionary change due from the 11th to the 14th. Conjunction of the moon with sun and earth, or new moon on the 11th, will check the tendency to high barometer and cold, and a sudden return to warmer, low barometer and rain and snow will be natural about Monday the 11th to Thursday the 14th. These reactionary storms will be followed by a more persistent and general over central and northern sections for several days leading up to the vulcan storm period central on the 18th. This vulcan storm period extends from the 16th to the 20th, the 20th being the central day of the Venus period, with the moon again on the celestial equator in her passage from south to north declination. Some of the most decided storms of the month may be expected from about Sunday the 17th to Tuesday the 21st. These storms will reach a crisis on and touching the 20th, rain, wind and thunder being followed in many sections within a few hours by northwesterly gales, driving snow and change to freezing.

The freezing weather following the last storms will react to warmer from the 23rd to 26th. On the 25th the moon is full and in perigee, or nearest to the earth. It is also in direct opposition with earth and sun on the 25th, causing an eclipse of the moon in other parts of the earth. Look for many more storms, largely of a blizzardous character, not more than forty-eight hours before or after sundown on the 25th, followed rapidly by a great rise of the barometer and a rushing cold wave that will be felt far to the south.

### THE STATE AT A GLANCE.

—Pottsville's school board has increased the salary of the truant officer from $5 to $25 a month and a night school will be opened.

—At 7:30 Sunday night an unknown elderly man, fairly well dressed, was instantly killed at Hudson by a Delaware and Hudson passenger train. The body was mangled beyond recognition. It is not known how he was struck, as the engineer did not see him.

—Diphtheria is raging around Greenfield, and seven deaths have already resulted. The place is quarantined, and the authorities hope to stay the progress of the disease. The failure of the physicians to use antitoxine in time is the supposed cause of the epidemic.

—It is believed that murder has been committed in the case of John H. Price, of Enterprise, whose dead body was found in the creek on the outskirts of Shamokin Saturday morning. The general appearance of the body gave evidence that a struggle preceded death. The head was cut open, as was also the face.

—The Shamokin borough council has decided to adopt measures for the prevention of smallpox two new cases of which were discovered in Springfield. They appropiated $600 for the erection of a smallpox hospital, and it will be built at once. Shamokin is now thoroughly alarmed, and is resolved to stamp out the disease.

—Winans Hull, of Carbondale, who was returned guilty of murder in the second degree in Honesdale on Tuesday last for killing Edwin Schoonover, of Scranton, in the woods near Lake Lodore, on June 26, was Monday sentenced by Judge Purdy to twenty years' imprisonment in the Eastern penitentiary, the maximum penalty of the law.

—About two months ago Mrs. Jacob Myers, of Williamsport, had a number of teeth extracted. A few days later she became ill and the doctors diagnosed her disease as hasty consumption. Last night in a paroxysm of coughing she coughed up a tooth which had evidently been lodged in her lung. It is believed she will now recover.

—To guard against burglars breaking into the house and stealing the wedding gifts to his daughter, Nellie, who was married last week to Joseph Cochran, ex-Attorney General H. C. McCormick's home at Williamsport is guarded by armed officers every night. Three rooms in the house are filled with gifts, the estimated value of which is $100,000.

—Mrs. Helen George, of Sharon, Pa., claims the distinction of being the oldest woman in America. She is said to be 121 years of age, so stated at a birthday celebration. She is the mother of nine children, three of whom are living. They are Mrs. Helen Jennings, Mercer county, aged 99 years; William Emlenton, aged 80 years, and Henry George, of Plumber, aged 74 years. She retains all her faculties and is in fair health.

—Rev. James H. Bettens, the young Methodist minister, who forgot his vows of love to Miss Jane Perry, of Hazleton, and married another girl, for which offense he was suspended from the Danville Conference by an Investigating Committee, has quietly vacated the little parsonage at Silver Brook. Rev. Bettens is said to have been a devoted attendant upon Miss Perry for seven years. His letters read at the investigation by a committee of six ministers in Hazleton teemed with endearing terms.

—The alleged nightly appearance of a figure in black—presumably a woman—on the road between Montgomery and Clintonville, near the graves of the murdered wife and children of William Hummell, has caused much excitement among the superstitious people in the vicinity who believe it is the ghost of the murdered woman. It is said that there is a disposition among the more practical people of the vicinity to watch for the "ghost" and treat it to a dose of bird shot, in which event some sensation loving person in the community will likely turn up for repairs.

—Thomas Shannahan, an emloyee for the railroad company at Osceola, died at that place on Tuesday evening. He was supposed to be very poor, but after his death money to the amount of $5,500 was found on his person, sewed up in the lining of his clothes. Shannahan has been employed for years as a track hand at $1 per day, and some of the bills dated back to 1850 on banks long since out of existence, shows that he has been hoarding and carrying the money in that manner for many years. The money had to be fumigated before it was placed in circulation again. Three sisters, one of whom lives in Osceola, are the only known heirs.

### Thanksgiving Dinner.

COMMITTEE.

### An Important Decision.

**That Will be Hard on Dealers Selling on Installment Plan.**

By a decision of Judge Ralston, in the criminal court of Philadelphia, Tuesday, a purchaser of goods on the installment plan who does not pay the bill may only be held responsible in an action at civil law.

Mary Jeltschlichter was charged with larceny as bailee of sixteen yards of carpet, valued at $12, and a mirror valued at $4, belonging to Gately & Fitzgerald. It appears that she had bought the goods on weekly installments, but had subsequently refused to make full payment.

Her counsel admitted that she had not lived up to the lease, but said that no demand had been made upon her for the return of the goods and that the charge of larceny as bailee was improper. In substantiation of this he cited two decisions of the supreme court, wherein it was held that larceny as bailee implies that the defendant was given something in trust, and obliged to return that identical thing, and no equivalent or alternative.

In this case, however, an alternative in the shape of money in payment was expected, and therefore the charge in the bill of indictment was incorrect.

Judge Ralston admitted the distinction, and expressed the opinion that the case was breach of contract, with a civil remedy only. He therefore instructed the jury to render a verdict of not guilty, which was done.

There are many cases of similar nature coming up in this region and by this decision a civil action is necessary and then the defendant can take advantage of the $300 law.

The other evening, says Dame Rumor, a fourth ward resident went home comfortably loaded with the amber fluid. His wife who had been on the look out for him met him at the door with the remark, "Well, full again." "Yes dear, I'm full and the moon's full and you're beauti—" but she had him by the ear and the door banged shut before he could finish.
